Approved for use through 04/30/2007. OMB 0651-0033

U.S. Patent and Trademark Office; U.S. DEPARTMENT OF COMMERCE

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

REISSUE APPLICATION DECLARATION BY THE INVENTOR

Docket Number (Optional)

05525-00003-US

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 5,991,749, granted November 23, 1999 and for which a reissue patent is sought on the invention entitled**WIRELESS TELEPHONY FOR COLLECTING TOLLS, CONDUCTING FINANCIAL TRANSACTIONS, AND AUTHORIZING OTHER ACTIVITIES**

the specification of which

☐ is attached hereto.☒ was filed on November 23, 2001 as reissue application number 09/990,327 and was amended on January 3, 2005 (if applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☐ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verify believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

The error in the patent is a consequence of claiming less than the patentee had a right to claim. At the time application SN 08/929,217 was filed and throughout the prosecution of that application, I was unaware that the claims were unnecessarily limited to methods which included either "expanding the function of a service provider's central processing unit to include account and authorization information," (claims 1 and 6) or "expanding the function of a service provider's central processing unit to include secure independent verification of a user's identity" (claim 4). New claims directed to my invention are included in this application which are not so limited.

In addition, I failed to recognize and emphasize that aspect of my invention which was the utilization of information stored in the phone that is routinely sent to the operator of a wireless system as an identifier which can be used to access a financial account from a wireless phone without the need for the user to manually enter this information. New claims directed to this aspect of my invention are also included.

Furthermore, the failure to present claims 99-188 was not the result of any deceptive intention.
